man.

Monongahela was chosen as the  
place for the next convention upon an  
invitation being received from the  
Sunday school workers there.

One of the features Friday was the  
adoption of a resolution petitioning  
the court of Washington county to  
issue an edict calling for the closing  
of the bars of hotels on holiday,  
this rule being similar to that in ef-  
fect in certain other counties.

A part of Friday morning's session  
devoted to "Teacher Training" and  
this was in charge of Rev. J. T.  
Hackett, of the First Presbyterian  
church of Charleroi. Rev. John R.  
Burson of Charleroi was called to  
the platform for a short address.

Miss Cora Dickey of Pittsburgh con-  
ducted a missionary conference. Miss  
Rose Russell, of Allegheny county  
gave a talk on the graded union, and

conference Coroner James T. Heffran

### Innovation Is Popular

### New Merry-Go-Round at Playgrounds Besieged at All Times by Children

One of the most successful innova-  
tions at the playgrounds yet installed  
is the new merry-go-round. At any  
time of day when the playgrounds  
are open the merry-go-round is being  
besieged with children anxious for  
a ride. Friday the playgrounds were  
crowded and all the equipment there  
there was called into service, while  
the children who could hardly get  
near them engaged in play on the  
grass. A fence is to be put up that  
will add considerably to the surround-  
ings.

## STREET GRADES ARE SET

### Preparations Being Made for Paving to Be- gin at North Charleroi

### SEWERS BEING LAID

Two grade ordinances passed first  
reading at a meeting of the North  
Charleroi council Friday evening, and  
will be taken up again on Wednesday  
June 25, at an adjourned meeting for  
second and third reading. The ordi-  
nances were for the grading of  
Fourth street from the railroad to  
the river and the others were for the  
grading of Lock and Fifth street  
from the bridge to Center avenue.  
Minor changes were ordered to be  
made in the ordinances.

There was considerable discussion  
of the work that has been done on the  
laying of sewers on the hill. This  
work is progressing well. The Donora  
Construction company has the con-  
tract for this work.

### ARRANGING FOR PUPILS' RECITAL

Arrangements are being made by  
Mrs. Flora M. S. King for a pupils'  
recital to be given by her Charleroi  
vocal pupils, assisted by a few of the  
Pittsburghers. The recital will be  
given on Tuesday, July 1, in the pub-  
lic reading rooms at the corner of  
Washington avenue and Fifth street.  
The program will consist of solos,  
duets, trios, and choruses. The re-  
cital will be free.

## CURB MARKET OPENS SEASON WITH RUSH; SELLING IS RAPID

### Everything Sold Out Early in Morning--Innova- tion of Curb Market Manager Works Towards Benefit of Market

With a rush the Charleroi curb  
market opened this morning for the  
season. More wagons than at the  
opening last year were on hand and  
shoppers were more eager to buy  
up their offerings. The consequence  
was that very early everything had  
been sold.

The innovation of having a curb  
market manager on hands to look  
after the location of the wagons and

to generally supervise the market  
worked well. W. M. Darby is the  
market manager, he having been  
elected some time ago.

Later in the year it is likely that  
a number of folding stands will be  
constructed so that they can be used  
every marketing day. Marketing  
days will be Tuesdays and Saturdays  
and the marketing place will be as  
usual at Sixth street.

## CHARLEROI LAD WINS HONORS IN SCHOOL ATHLETICS

Among those who won athletic  
honors at Mercersburg Academy for  
the school year of 1913 was R. M.  
Jameson, the son of Mr. and Mrs. W.  
W. Jameson of Lincoln avenue. "Mac"  
won the insignia "A. M. A." and  
"M 2nd" in baseball. A Monessen  
youth who is known here, M. E.  
Wagoner, won an "M" with the  
track team.

## WANDERING JEW AT THE PALACE MONDAY

Eugene Sue's masterpiece, "The  
Wandering Jew," will be presented in  
motion pictures at the Palace Theatre  
Monday. This sensational and dra-  
matic production is in five reels, and  
it takes nearly two hours to run.  
Those who have read this old time  
melodramatic romance will have a  
great curiosity to see it in living  
form, which presents the vivid de-  
scriptions in their reality.

Parke's Demonstration at Kirk &  
Clark's.

We want everybody to come to the  
Parke Demonstration in our store  
and get a trial of their excellent cof-  
fee any time today or Monday. Dur-  
ing this demonstration we will have  
presents for the children and will  
start a new book with ten stamps  
free to every visitor. Kirk & Clark,

## DONORA BAND TO APPEAR SUNDAY AT ELDORA PARK

Under direction of Prof. Andrew  
Patton, the Donora Steel Works band  
will appear at Eldora Park on Sun-  
day afternoon and evening. Mem-  
bers of the band are practically all  
workers in the Donora mills. The di-  
rector is a man who has been in var-  
ious contests and has directed bands  
in several cities. He was formerly lo-  
cated in Cleveland, Ohio and from  
there went to Connellsville. He is a  
musician of more than ordinary abil-  
ity. The band is rapidly becoming  
one of the most noted in the Monon-  
gahela valley.

Next Sunday Joe Nirella's band  
from Pittsburgh, a winner of first  
prizes in many events will play. Ni-  
rella's band is one of the best known  
in Western Pennsylvania.

## WILL CONDUCT LOT SALE NEXT WEEK AT NORTH CHARLEROI

George W. Dawson of Charleroi,  
has announced that he will conduct a  
lot sale at Lock View Terrace next  
Friday and Saturday, June 20 and 21.  
This will be the second lot sale that  
Mr. Dawson will have conducted  
there. His first sale last year was a  
tremendous success. On the two days  
he will have free band concerts.  
Further announcement is to be made  
of the two events.

## BOYS AND GIRLS PONY CONTEST TAKING ON ADDITIONAL LIFE

Two weeks gone but still a chance  
to start. Any live boy or girl can  
still start. The only thing is to go  
and keep going. There is a great in-  
terest among the children and par-  
ents. Ask the following contest mer-  
chants for Pony Votes: George S.  
Might, book store; Palace Theatre;  
George Wagner, ice cream; J. M.  
Fleming, plumbing; C. R. Newcomer,  
shoes. Piper Pharmacy; Farmers Sup-  
ply Company, harness, etc.; Frye

Hardware Company; James Gelder,  
meat market; Eugene Faudry goods;  
S. L. Woodward, furniture; Green-  
berg Brothers, clothing; H. Porter,  
jewelry; M. Wein, tailor; Carl M.  
Wertz, printing.

Ask your friends to deal with them.  
Post cards can be had at all places.  
Get them and mail them to all your  
friends. Ask them to hold their pony  
tickets for you. 276-41

## May Recover From Injury

### Raymond H. Black Regains Senses Following Operation --Hit With Ball

Word from the Allegheny General  
hospital at Pittsburgh, where Ray-  
mond H. Black, the young Charleroi  
jeweler was taken after having his  
skull fractured with a baseball is to  
the effect that he is improving. He  
recovered his senses Friday after the  
operation the previous morning suf-  
ficiently to recognize his wife and  
father.

## PHILLIPS A MAN OF MYSTERY

### Says Indianapolis Paper of Charleroi Man Who is Manager

### HAS GOOD BALL CLUB

Out in Indianapolis where he is  
manager of the Indianapolis Feder-  
al league team, "Bill" Phillips of  
Charleroi, is called the inscrutable  
Bill. With the bulk of the team that  
trained in Charleroi he is rapidly  
pulling Indianapolis to the top of the  
pennant scrap, at the present time  
Chicago being the only team ahead.  
Dolan, a first baseman, Conway, an  
outfielder and Carter, a catcher are  
three regulars that he has added to  
his list and they are helping wonder-  
fully. Bill and his feds will come to  
Pittsburgh on July 7 and for four days  
it is believed there will be rooters a-  
plenty go from here to offer encour-  
agement. But by that time it is  
fondly predicted his team will be  
leading the league. Of the "Inscrut-  
able Bill" Jack Vedlock in the In-  
dianapolis Sun in a recent issue  
says:

"A man of mystery, a dealer in  
baseball black art. Come out from  
behind the brush Bill Phillips, we  
know you.

"Yes, it's a truth. Our Federal  
manager is about the most mysterious  
person in this neck of the woods. His  
Hoosier feds are playing good ball  
and bid fair to win the pennant in  
Powers' league, but Silent Bill never  
cracks a smile and is contented to  
see his hirings plugging along,  
winning the big majority of games.  
Nobody knows when Bill laughs up  
his sleeve and he has probably had  
many a good laugh since the Hoosier  
Feds started the rejuvenation stuff  
and bumped into the pennant chasing  
class.

"Where does 'Whoa Bill' get these  
ball players? Many fans has asked  
the question and many a bug is still  
wondering. Said bugs will keep on

## Deep Water and Soft Bottom Make Build- ing of Cofferd Dam Stiff Proposition

### FLOOD TROUBLE FEARED

### Much Danger After Actual Construction is Started Possible From Rushing Water

Difficulties that at first were not  
realized will have to be overcome in  
the construction of the coffer dam at  
Lock No. 4, where work of building  
a new lock has been started. Below  
the old lock and below the dam to the  
outside of the old lock there is a 30  
foot depth of water. In addition to  
this there is a soft bottom that will  
necessitate the driving of piles as a  
foundation. These piles will be sunk  
probably 30 feet.

The upper part of the coffer dam  
enclosing a part of the outside lock  
has already been constructed, the one  
remaking gap between the coffer dam  
and the river dam to be entirely closed  
today.

With the closing of this gap the  
real difficulty begins. Below the river  
dam is where there is the greatest  
depth of water, owing to the heavy  
overflow of water continued. For the  
several years that the dam and  
locks have been in use. Ordinarily  
30 foot depth of water would not  
cause expert engineers any trouble,  
but combine that with a soft river  
bottom and it gives them wrinkles.  
When Lock No. 1 was rebuilt there  
was a solid bottom to work on, form-  
ing a perfect foundation. At Lock  
No. 4 the foundation has to be made.

There have been three floods so  
far that have held back progress to  
some extent. However they have  
not done great damage. The great  
loss from floods comes after the work  
of construction on the enclosed lock  
is started. This of course is after the  
coffer dam enclosure has been pump-  
ed free from water. A flood that  
overflows the coffer dam simply de-  
stroys the work done so that usually  
it has to be done all over again.  
Floods are what the lock workers  
dread. With the tremendous loss  
caused to lock work it is not strange  
that the government is taking up in  
earnest the question of flood preven-  
tion. And the Monongahela river  
is one of the worst in existence for  
floods.

At the present time E. C. Heibel  
from the steamer Braddock is en-  
gaged in diving to sound the deep water  
below the dam. The steamer Swan  
and a government force is at work  
filling up a hole near the dam. Col.  
T. P. Roberts who is generally super-  
vising the work makes frequent  
visits from his Pittsburgh office to the  
work. J. R. Myers is the construc-  
tion superintendent and C. F. Ash-  
craft the engineer directly in charge.

Kirke McClain, Albert Wilson and  
Cardon Jameson have returned from  
State College where they attend the  
college.

## WHY NOT THE RECALL?

The bringing of three judicial im-

peachment proceedings before the

legislature at this session shows the

incompatibility of the procedure with

the ideas of justice and equity, to-

gether with the inadequacy of the

law for redress in the matter of

charges against the judiciary. As

the law now stands, there is prac-

tically no redress, as impeachment

proceedings through the medium of

the legislature never amount to any-

thing. In most cases those that have

already been brought were inspired

by personal animus or spite, and as a

rule they fall by the wayside. Few

if any rarely pass beyond the inves-

tigation stage.

These futile proceedings serve to

emphasize the desirability of the re-

call, which in all fairness should ap-

ply to every elective office. In the

matter of judicial conduct the recall

could never be invoked on mere per-

sonal animus and spite. With the

judiciary established on a non-parti-

san basis it would be seldom that

enough petitioners could be secured

to invoke the recall to gratify the

personal animus of an individual or

clique. This would be the same in

every other case, but at the same

time the people would have a most

effectual check on the public ser-

vants they elect to administer their

affairs. As conditions now are a

senator or an assemblyman can ut-

terly ignore his pledges or go square

back on the interests of his constitu-

ency, and the people are powerless

to protest. With the recall some of

these officials who are so haughty and

independent could be brought back

to earth in short order.

## FOR EQUAL FRANCHISE

Ashurst has submitted the

report of the women suffrage com-

mission to the United States senate

recommending the passage of the

Constitutional amendment extending

the vote to women.

"In this republic," says the report,

"the people constitute the govern-

ment. They are its creators and its

maintenance; they are the govern-

ment. That the granting of the elec-

tive franchise to women would add to

the strength, efficiency, justice and

fairness of the government we have

not the slightest doubt.

"It is anomalous and archaic in a

free republic, professedly made up or

controlled by and administered for

all the people to deny to one-half its

citizens the right of exercising a

valuable function of citizenship, to

wit, the elective franchise, thus pre-

cluding that one-half from the right

and power to say what law or policy

shall be its rule of conduct. And

this anomaly becomes odious and ab-

horrent when we reflect that the pa-

rticular half of citizenship thus ex-

cluded is the identical one-half from

which springs so much wisdom, cour-

age, cheer, hope and good counsel."

It is possible that an amendment

to the United States constitution may

be speedily passed. With the tremen-

dous growth of the equal suffrage

sentiment throughout the country,

and ten states with equal suffrage al-

ready, the chances for the ratifica-

tion of such an amendment by three-

fourths of the state are particularly

bright.

## ELECTRIC SPARKS

As long as American common sense

is allowed to guide the ship of state

the tariff discussion will cause little

uneasiness except among those

Washingtonians who wouldn't know

how to get along without it.

Why all this talk about a little bit

of a polo game, when there is base-

ball handy.

Just think what a start in life a

Princeton graduate has this year.

Somewhat or other Washington neg-

lected to say that the Sunday

school convention was better than the

Charleroi convention last year.

The world is yet to hear some gold-

en gems from gracious graduates.

Not all have had their commence-

ment

Until the members of a class get

their diplomas, their assemblages are

class meetings. After they get di-

plomas, their meetings are reunions.

than usual are to be kept open in New

York this summer. There is still

some hope for that village's salvation.

tain, seventeen-year locusts made

woman in black and the wild man.

## Parental Problems.

Where a whipping may improve

one boy it will create a grudge and a

thrust for revenge in another. Parents

have several problems, besides making

a living.—Atchison Globe.

ticular gratification when she gets a

# PICKED UP IN PASSING

"Me for a vacation. I want one

every year, and I am going to have

one next month," asserted a man in

talking of present enjoyment during

a two weeks off.

"For the last five years or so I

have been working and have had lit-

tle thought of getting a few days off,

and of getting away from work. I

suppose I was tired. But to re-

turn myself from my work. I have profited

and by jinks, next year is going to

send me on a jaunt as is every other

year if I can make it.

"I have often thought of these per-

sons we term 'poor wops' and 'igno-

ramuses.' They seem to be the only

ones who really do enjoy themselves.

See a crew of foreigners, ignorant

and having no higher aim in life than

to get what they are. But did you

ever notice that they are im-

mensely happy? Some of us who

think we are wise and shrewd and

who have benefited considerably from

educational advantages toil and labor

and worry and never feel contented.

We live in a country of dissatisfac-

tion. Life is one continual bit of dis-

satisfaction after another.

"If we can get away from this

care and the headaches incident there

to we are certainly going to feel bet-

ter. Therein is where the value of

a vacation lies and I know it."

The other day a woman who lives

in the hill district gave her little

six-year-old son a quarter and told

him to go to the barber shop a few

quarres below and get his hair cut.

"I'm going to get it cut like Dr.

—," said the little lad, men-

tioning their family physician.

The mother thought nothing of this,

and the boy departed. Presently he

returned, and his mother gave a

shout of dismay, when she beheld

his head, which was shaved as close as

the clippers could cut it.

"F— heaven," she exclaimed, "why

did you get your hair cut so close

as that?"

"I told you I was going to get it

cut like Dr. —," said the lad,

and then the mother remembered that

the physician in question had no more

hair on his head than a billiard ball.

Depreciation! The thing that makes cars expensive. No one wants a car that's out of date and out of style. You wouldn't have brass trimmings on your car today. Nowadays nothing will do except electric starter and electric lights. Yet many purchasers are urged into buying right-hand drive cars when the same factory will eventually show new models with left drive and center control, cowl dash and tank and wire wheels, features you get on the Henderson now and at no extra cost.

Exactly one year ago today we first offered—left drive and center control with cowl dash. Isn't this convincing evidence that the Henderson really is the year ahead car?

## Important Note to Dealers!

A year ago we made a similar announcement and took the automobile trade by storm. The response was instantaneous. Everyone knew a car the Hendersons produced would take foremost rank. Now we are ready with the Henderson De Luxe—the "year ahead" car. Our distributing houses are real institutions. They have Henderson cars—they have Henderson parts—they have completely equipped shops. Furthermore, they now have new De Luxe Henderson Cars. The

dealer who secures territory now open can drive the Henderson De Luxe demonstrator home if near a distributing house, otherwise prompt shipment from Indianapolis.

Write us for complete information regarding the Henderson "square deal" agency arrangement. When you come to Indianapolis for the 500-Mile Race, see the complete Henderson line of 1914 series. Exhibited in the Claypool Hotel.

To Preserve Home of George Fox. Swarthmoor hall, near Ulverston, Lancashire (Eng.) formerly the home of George Fox, founder of the Society of Friends, was bought at Ulverston, a short time ago, on behalf of the English members of the society for £5,250. His writing desk was bought for 26 guineas.

The Merry Advertiser. Who says there is no more any genuine English humor? A provision dealer in Earl's court neighborhood, London, displays this on a window sign: "When visiting Shakespeare's England, eat England's Bacon."

Rush to Extremes. A single man is seldom as good as his sweetheart thinks he is, or a married man as bad as his wife suspects he is.

More Likely. The girl who thinks no man is good enough for her may be right, but it is more likely that she is merely spoiled.

Sometimes It's Himself. When a man wears a flower in his buttonhole it indicates some woman is proud of him.—Athens Globe.

Softening Granite Slabs. It has been observed that, under certain conditions which have not been explained, granite will warp like wood. A slab set in a wall has been under observation in Switzerland, and a perceptible distortion has made itself apparent.—Harper's Weekly.

Some Encouragement. "That girl has rejected me three times," confided the disconsolate youth. "Well," replied Miss Cayenne, "you should feel encouraged. A girl who will listen to three proposals from the same man must think something of him."

### TRAINED IN HOUSEHOLD WORK

German Institution Teaches Girls Domestic Service, and Finds Great Demand for Graduates.

Berlin has an institution, founded about two years ago by a woman. The object of the "Sister School," as it is called, is to train well-educated girls for domestic service. The students are generally daughters of professional men, and the curriculum comprises cooking, housework, the care of children, and needlework. When application is made for the services of a "sister," the mistress, or some other woman connected with the school, calls upon the applicant, forms an opinion of the "situation," and arranges terms. Each "sister" must be allowed a free afternoon every week, one Sunday every other week from four o'clock, and a fortnight's holiday in the year. Six weeks' notice is required on each part. The salaries paid range from \$7.50 to \$12.50 a month, with, of course, board and lodging. Sisters wear a brown uniform, are treated as social equals, are not required to take meals with other servants, and are addressed as "Sister Marie," "Sister Hedwig," etc. The demand for their services is so great that the head of the Sister school declares that she could place 500 girls a year, instead of 50, and similar institutions are about to be established in other German towns.

### \$20 Gold Pieces a Quarter Each.

When five boys commenced to sell \$10 and \$20 gold pieces on the streets of North Scranton for 25 cents each, with the supply apparently unlimited, curiosity was at once aroused as to the source of supply, and the boys were taken into custody and given the "third degree." When searched the youths' pockets produced over \$500 in gold coin and when questioned they admitted that they had found a "pot of gold."

The money was buried in a box in the cellar of a house formerly occupied by Peter J. Scanlon, who during his lifetime had the reputation of being a miser. There were \$620 in shiny gold pieces in the box. The boys, none of whom was over eight years of age, thought they were brass medals and sold about twenty of them before being arrested.—Scranton (Pa.) Dispatch to Philadelphia Record.

### MAKE WAREHOUSE OF CHURCH

Sacred Edifice at Brighton, England, Has Been Unfortunate Since Its Erection.

To serve as a cold storage warehouse for meat and eggs—such is the fate of the beautiful Church of the Resurrection at Brighton, England. Built at the expense of the late Rev. H. D. Wagner for the accommodation of the congregation, and for those who preferred a ritual simpler than that of St. Paul's church on West street, this building first attracted the public attention as the subject of a curious lawsuit. Mr. Wagner planned to build a remarkably tall church, and the owners of the adjoining property, by means of a lawsuit, prevented him from so doing. Accordingly he caused deep excavations to be made, and thus secured the desired internal height. The Church of the Resurrection proved to be a great expense and was closed in 1908, being, in the opinion of the present vicar of St. Paul's, no longer necessary for the purpose for which it was built. In 1909, after prolonged opposition on the part of Rev. E. F. B. Weber, one of the trustees, it was sold. Since then it has stood empty and in disrepair, until the grotesque tragedy of its present usage occurred.—The Churchman.

### Tons of Iron Lost in Rust.

One large railroad system suffers a loss of more than eighteen tons of metal daily, due solely to the effect of rust. Thus far the only known preventive is to keep the metal surface always covered with a suitable paint. Some idea of the costliness of this remedy, however, may be gained from the fact that it requires about \$10,000 annually to paint one large railway bridge alone. A typical case of this kind is the Brooklyn bridge, upon which a corps of painters are constantly employed, as the weather makes repainting of one end of this large structure necessary before the workers have reached the other. Although experiments have demonstrated that pure iron surrounded by oxygen does not rust, and that some acid, especially carbonic acid, is necessary for the production of rust, the secret of manufacturing rustless steel and iron remains to be discovered.

### Lasting Joke.

How long will a good joke last? Who can tell? You have heard that one about the good sleighing in Canada, and how by putting on a pair of pajamas and sitting on a cake of ice before an open window and ringing a bell one can get the same effect, and much cheaper. Billy Emerson, the minstrel, originated that one over thirty-five years ago, and it is one that has never run down. DeWolf Hopper began to use it in his curtain speeches eleven years ago, and ever since, eight times a week forty weeks a season, he has used it and it has never failed to get a laugh. Always there are some in the audience who never heard it. Hopper figures that with the addition of a few score times at private functions he has "sprung" the chestnut 8,763 times. It is his one best bet, he says, and expects to use it as long as he is in public life.

### Innovation Is Popular

**New Merry-Go-Round at  
Playgrounds Besieged at  
All Times by Children**

One of the most successful innovations at the playgrounds yet installed is the new merry-go-round. At any time of day when the playgrounds are open the merry-go-round is being besieged by children anxious for a ride. Friday the playgrounds were crowded and all the equipment there was called into service, while the children who could hardly get near them engaged in play on the grass. A fence is to be put up that will add considerably to the surroundings.

Two grade ordinances passed first reading at a meeting of the North Charleroi council Friday evening, and will be taken up again on Wednesday June 26, at an adjourned meeting for second and third reading. The ordinances were for the grading of Fourth street from the railroad to the river and the others were for the grading of Lock and Fifth street from the bridge to Center avenue. Minor changes were ordered to be made in the ordinances.

There was considerable discussion of the work that has been done on the laying of sewers on the hill. This work is progressing well. The Donora Construction company has the contract for this work.

## CURB MARKET OPENS SEASON WITH RUSH; SELLING IS RAPID

**Everything Sold Out Early in Morning--Innovation of Curb Market Manager Works Towards Benefit of Market**

With a rush the Charleroi curb market opened this morning for the season. More wagons than at the opening last year were on hand and shoppers were more eager to buy up their offerings. The consequence was that very early everything had been sold.

The innovation of having a curb market manager on hands to look after the location of the wagons and to generally supervise the market worked well. W. M. Darby is the market manager, he having been elected some time ago.

Later in the year it is likely that a number of folding stands will be constructed so that they can be used every marketing day. Marketing days will be Tuesdays and Saturdays and the marketing place will be as usual at Sixth street.

### CHARLEROI LAD WINS HONORS IN SCHOOL ATHLETICS

Among those who won athletic honors at Mercersburg Academy for the school year of 1913 was R. M. Jameson, the son of Mr. and Mrs. W. W. Jameson of Lincoln avenue. "Mac" won the insignia "A. M. A." and "M. 2nd" in baseball. A Monongahela youth who is known here, M. E. Wagoner, won an "M" with the track team.

### WANDERING JEW AT THE PALACE MONDAY

Eugene Sue's masterpiece, "The Wandering Jew," will be presented in motion pictures at the Palace Theatre Monday. This sensational and dramatic production is in five reels, and it takes nearly two hours to run. Those who have read this old time melodramatic romance will have a great curiosity to see it in living form, which presents the vivid descriptions in their reality.

## PHILLIPS A MAN OF MYSTERY

**Says Indianapolis Paper  
of Charleroi Man Who  
is Manager**

### HAS GOOD BALL CLUB

Out in Indianapolis where he is manager of the Indianapolis Federal league team, "Bill" Phillips of Charleroi, is called the inscrutable Bill. With the bulk of the team that trained in Charleroi he is rapidly pulling Indianapolis to the top of the pennant scrap. At the present time Chicago being the only team ahead. Dolan, a first baseman, Conway, an outfielder and Carter, a catcher are three regulars that he has added to his list and they are helping wonderfully. Bill and his Feds will come to Pittsburgh on July 7 and for four days it is believed there will be rooters aplenty go from here to offer encouragement. But by that time it is fondly predicted his team will be leading the league. Of the "Inscrutable Bill" Jack Vodiack in the Indianapolis Sun in a recent issue says:

"A man of mystery, a dealer in baseball black art. Come out from behind the brush Bill Phillips, we know you."

"Yes, it's a truth. Our Federal manager is about the most mysterious person in this neck of the woods. His Hoosier Feds are playing good ball and bid fair to win the pennant in Powers' league. But Silent Bill never cracks a smile and is contented to see his hirelings plugging along, winning the big majority of games. Nobody knows when Bill laughs up his sleeve and he has probably had many a good laugh since the Hoosier Feds started the rejuvenation stuff and bumped into the pennant chasing class."

"Where does 'Whoa Bill' get these ball players? Many fans have asked the question and many a bug is still wondering. Said bugs will keep on."

**Deep Water and Soft  
Bottom Make Build-  
ing of Coffor Dam  
Stiff Proposition**

### FLOOD TROUBLE FEARED

**Much Danger After Actual  
Construction is Started  
Possible From Rushing  
Water**

Difficulties that at first were not realized will have to be overcome in the construction of the coffer dam at Lock No. 4, where work of building a new lock has been started. Below the old lock and below the dam to the outside of the old lock there is a 30 foot depth of water. In addition to this there is a soft bottom that will necessitate the driving of piles as a foundation. These piles will be sunk probably 30 feet.

The upper part of the coffer dam enclosing a part of the outside lock has already been constructed, the one remaining gap between the coffer dam and the river dam to be entirely closed today.

With the closing of this gap the real difficulty begins. Below the river dam is where there is the greatest depth of water, owing to the heavy overflow of water continued for the several years that the dam and locks have been in use. Ordinarily 30 foot depth of water would not cause expert engineers any trouble, but combine that with a soft river-bottom and it gives them wrinkles. When Lock No. 1 was rebuilt there was a solid bottom to work on, forming a perfect foundation. At Lock No. 4 the foundation has to be made.

There have been three floods so far that have held back progress to some extent. However, they have not done great damage. The great loss from floods comes after the work of construction on the enclosed lock is started. This of course is after the coffer dam enclosure has been pumped free from water. A flood that overflows the coffer dam simply destroys the work done so that usually it has to be done all over again. Floods are what the lock workers dread. With the tremendous loss caused to lock work it is not strange that the government is taking up in earnest the question of flood prevention. And the Monongahela river is one of the worst in existence for floods.

At the present time E. C. Heibel from the steamer Braddock is engaged in diving to sound the deep water below the dam. The steamer Swan and a government force is at work filling up a hole near the dam. Col. T. P. Roberts who is generally supervising the work makes frequent visits from his Pittsburgh office to the work. J. R. Myers is the construction superintendent and C. F. Ashcraft the engineer directly in charge.

Kirke McClain, Albert Wilson and Cardon Jameson have returned from State College where they attend the college.

WHY NOT THE RECALL?

The bringing of these judicial im-  
peachment proceedings before the  
legislature at this session shows the  
incompetency of the procedure with  
the ideas of justice and equity, to-  
gether with the inadequacy of the  
law for redress in the matter of  
charges against the judiciary. As  
the law now stands, there is prac-  
tically no redress, as impeachment  
proceedings through the medium of  
the legislature never amount to any-  
thing. In most cases those that have  
already been brought were inspired  
by personal animus or spite, and as a  
rule they fall by the wayside. Few  
if any rarely pass beyond the inves-  
tigation stage.

These futile proceedings serve to  
emphasize the desirability of the re-  
call, which in all fairness should ap-  
ply to every elective office. In the  
matter of judicial conduct the recall  
could never be invoked on mere per-  
sonal animus and spite. With the  
judiciary established on a non-parti-  
san basis it would be seldom that  
enough petitioners could be secured  
to invoke the recall to gratify the  
personal animus of an individual or  
clique. This would be the same in  
every other case, but at the same  
time the people would have a most  
effectual check on the public ser-  
vants they elect to administer their  
affairs. As conditions now are a  
senator or an assemblyman can ut-  
terly ignore his pledges or go square  
back on the interests of his consti-  
tuency, and the people are powerless  
to protest. With the recall some of  
these officials who are so haughty and  
independent could be brought back  
to earth in short order.

FOR EQUAL FRANCHISE

Ashurst has submitted the  
report of the women's suffrage com-  
mission in the United States senate  
recommending the passage of the  
Constitutional amendment extending  
the vote to women.

"In this republic," says the report,  
"the people constitute the govern-  
ment. They are its creators and its  
sustenance; they are the govern-  
ment. That the granting of the elec-  
torate to women would add to the  
strength of the government."

fairness of the government we have

not the slightest doubt.  
"It is anomalous and archaic in a  
free republic, professedly made up or  
controlled by and administered for  
all the people to deny to one-half its  
citizens the right of exercising a  
valuable function of citizenship. To  
wit, the elective franchise, thus pre-  
cluding that one-half from the right  
and power to say what law or policy  
shall be its rule of conduct. And  
this anomaly becomes odious and ab-  
horrent when we reflect that the ex-  
clusive had or citizenship thus ex-  
cluded is the identical one-half of  
which springs so much wisdom, cour-  
age, cheer, hope and good counsel."  
It is possible that an amendment  
to the United States constitution may  
be speedily passed. With the tremen-  
dous growth of the equal suffrage  
sentiment throughout the country,  
it is not unlikely that the ratifica-  
tion of such an amendment by three-  
fourths of the state are particularly  
bright.

ready, the chances for the ratifica-  
tion of such an amendment by three-  
fourths of the state are particularly  
bright.

PICKED UP IN PASSING

"Me for a vacation. I want one  
every year, and I am going to have  
one hereafter," asserted a man in  
talking of present enjoyment during  
a two weeks off.

"For the last five years or so I  
have been working and have had lit-  
tle thought of getting a few days off,  
and of getting away from work. I  
suppose I was tired. But I tore my-  
self from my work. I have profited  
and by jinks, next year is going to  
see me on a jaunt, as is every other  
year as I can make it.

"I have often thought of these per-  
sons we term 'poor wops' and 'ig-  
namuses.' They seem to be the only  
ones who really do enjoy themselves.  
See a crew of foreigners, ignorant  
having no higher aim in life than  
to be what they are. But did you  
ever notice that they are im-  
mensely happy? Some of us who

who have benefited considerably from  
educational advantages and labor  
and worry and never feel contented.  
We live in a country of satisfaction.  
Life is one continual bit of dis-  
satisfaction after another.

"If we can get away from this  
city and the numerous incidents there-  
of, we can get a good rest. I am  
going to take a vacation and I know it.

The other day a woman who lives  
in the hill district gave her little  
six-year-old son a quarter and told  
him to go to the barber shop and  
have his hair cut and get his hair  
cut.

"I'm going to get it cut like Dr.  
—," said the little lad, men-  
tioning their family physician.

The mother thought nothing of this,  
and the boy departed. Presently he  
returned, and his mother gave a  
look of dismay, when she beheld  
his head, which was shaved as close  
as the clippers could cut it.

"I shaved your head," said the ex-  
citement, why do you say you had  
it cut so close as that?"

"I told you I was going to get it  
cut like Dr. —," said the lad,  
and then the mother remembered that  
the physician in question had no more  
than a medical diploma.

MONONGAHELA  
CHOSEN AS PLACE  
FOR CONVENTION

(Continued from First Page)

Dr. J. W. Manor, Rev. John F. Stray-  
or and Mrs. Belle M. Riggie made  
the address. The Organized Adult  
Bible Class meeting was addressed by  
Byron E. Tombarth, Esq. The  
meeting was presided over by W. F.  
Allen of Monongahela. Miss Fran-  
ces Cooper conducted an elementary  
division meeting, and Mrs. G. H.  
Thomas of Monessen made an ad-  
dress. A home department meeting  
was conducted by Miss Jennie Pol-  
lock of Canonsburg, and Miss Anna T.  
Law of North Side Pittsburgh, was the  
speaker. Rev. G. G. Kerr was in  
charge of the secondary division  
conference and addresses were made  
by Lloyd Hart, of Washington, and  
Miss Alice McFarland, of Marion,  
Ind.

In the afternoon Friday one of the  
chief addresses was made by Rev.  
J. E. Charles, pastor of the French  
Presbyterian church of Charleroi. He  
spoke on "The Foreigner as the Sub-  
ject of Evangelization." Miss Ro-  
maine Russel of Hickory discussed  
"How to Make a Sunday School go in  
a Mining Town." Miss Florence A.  
Wilson spoke of "Winning the Boys  
and Girls of the Mining town." Rev.  
Arthur Smith of Washington told an  
English speaking pastor can do for  
the foreigner.

Probably one of the most interest-  
ing talks of the whole Sunday  
school session was made by Rev. Al-  
bany Rodney Smith, son of "Gipsy"  
Smith, who told the story of his  
father's conversion, as resulting from  
sickness and death in the family.  
When "Gipsy" Smith was but a  
child. Rev. W. B. Smiley, D. D., of  
Pittsburg was the closing speaker of  
the afternoon.

The awarding of the banner to the  
Charleroi district for efficiency in  
front line work took place at the  
closing session. Mrs. Mary L.  
Stewart, field secretary awarded the  
banner, and it was received for  
Charleroi by Rev. C. P. Bastian,  
pastor of Christ Lutheran church.

The evening address and the final  
one of the convention was made by  
Rev. Isaac T. Headland, late a mis-  
sionary to China, who a short time  
ago lectured in Charleroi. His talk  
was particularly inspiring.

AMONG THE CHURCHES PHILLIPS A MAN

of mystery

(Continued from First Page.)

wondering and he no wiser for Bill  
don't talk and furthermore he can't  
be persuaded to confide in anybody.  
The Federal league is, of course an  
outlaw organization. It has to de-  
pend upon picking up ball players  
from the ranks of the independent  
and semi-professional class unless  
players in a organized ball decide to  
join its ranks. When they do it is  
nobody's business but their own.

"And this is the secret of the  
strength of some of the Federal league  
ball clubs. No one can blame the  
Feds. They are getting by and they  
have everything to lose if they don't  
do so they seem very anxious about  
organized baseball as long as organized  
ball doesn't recognize them. It's  
a case of six of one or a half dozen  
of the other.

"Catcher Carter, the latest addition  
to the Hoosiers and Fisher Golden  
bats, is a man who has been in the  
public and from whence they  
came is of little consequence, as long  
as they do their share to keep the  
Hoosiers up in the air. Catcher  
Carter looks like a man who could  
backstop, let alone being a utility  
man. Phillips has a good man.  
Carter and nobody knows a better  
than Old Bill Patcher Golden has  
shown yet but it's a ten-to-one shot  
that when he does he will show some-  
thing. So there you are, and you've  
got to hand it to Bill. He is not  
only playing the present but the fu-  
ture as well.

"Oh, yes, by the way, the Hoosiers  
won again yesterday. They won the  
game by the score of 11 to 0. It was  
about as much of a rout as you could  
want. They won 11 to 0. And  
that's a fact too. Dear old Bill  
is a fact to be feared at heading Covington,  
pitched for the locals. Just  
lan and Lambert did the wiggling stuff  
for the victors. As for details on  
"how it happened," there is little  
to say. Slugging the pill in bunched  
and taking advantage of every op-  
portunity to get a hit, gave the  
Feds all ground more than they needed  
to win. Ed Carter who looks and acts  
as though there were his halcyon  
days, played center field in place of  
Kaiser, who is laid up with a hum-  
mer piece of underpinning. Ed fielded  
bravely and flamed out two slow-  
besides scoring two runs. Bill  
safe ones and the rest of the boys did  
proportionately well. That victory  
yesterday pushed the Hoosiers a lit-  
tle closer to the top and if they keep  
on plugging they'll soon be there.  
Phillips has a plugging outfit and  
with his pitching staff going nice,  
he has nothing to worry him but his  
corps."

Been Reconstructed.

The latest concrete evidence of lit-  
erary devotion in Germany is the  
thorough reconstruction of the "Tav-  
ern of Auerbach," where Goethe placed  
one of the most vivid scenes of  
"Faust." It is melancholy to reflect  
that nothing more remains of the old  
building, since after a complete de-  
molition the architects have construct-  
ed a wholly modern building on the  
site, but care has been taken to pre-  
serve intact the cellar, which has  
been for a century an object of  
pilgrimage for Germans, who are at  
once proud of their literature and fond  
of recheche drinking.

Painters of an "advanced" school  
have been commissioned to adorn the  
walls of the various dining rooms with  
scenes taken from Goethe's great  
drama, while to complete the new at-  
tractions it is announced that the  
staircase leading down to the cellar  
will be furnished with two bronze  
statues, the work of a well-known  
sculptor. The evolution of the "Tavern  
of Auerbach" promises to be the same  
as that of other like sacred places. It  
will probably bring in an excellent in-  
come to the restaurateur.

Depreciation! The thing that makes cars expensive. No one wants a car that's out of date and out of style. You wouldn't have brass trimmings on your car today. Nowadays nothing will do except electric starter and electric lights. Yet many purchasers are urged into buying right-hand drive cars when the same factory will eventually show new models with left drive and center control, cowl dash and tank and wire wheels, features you get on the Henderson now and at no extra cost.

Exactly one year ago today we first offered—left drive and center control with cowl dash. Isn't this convincing evidence that the Henderson really is the year ahead car?

Announcement Issue of the Henderson Accelerator Now Ready—Write for It.

## Important Note to Dealers!

A year ago we made a similar announcement and took the automobile trade by storm. The response was instantaneous. Everyone knew a car the Hendersons produced would take foremost rank. Now we are ready with the Henderson De Luxe—the "year ahead" car. Our distributing houses are real institutions. They have Henderson cars—they have Henderson parts—they have completely equipped shops. Furthermore, they now have new De Luxe Henderson Cars. The dealer who secures territory now open can drive the Henderson De Luxe demonstrator home if near a distributing house, otherwise prompt shipment from Indianapolis.

Write us for complete information regarding the Henderson "square deal" agency arrangement. When you come to Indianapolis for the 300-Mile Race, see the complete Henderson line of 1914 cars. Exhibited in the Claypool Hotel.

More Likely. The girl who thinks no man is good enough for her may be right, but it is more likely that she is merely spoiled.

### TRAINED IN HOUSEHOLD WORK

German Institution Teaches Girls  
Domestic Service, and Finds Great  
Demand for Graduates.

Berlin has an institution, founded about two years ago by a woman. The object of the "Sister School," as it is called, is to train well-educated girls for domestic service. The students are generally daughters of professional men, and the curriculum comprises cookery, housework, the care of children, and needlework. When application is made for the services of a "sister," the matron, or some other woman connected with the school, calls upon the applicant, forms an opinion of the "situation," and arranges terms. Each "sister" must be allowed a free afternoon every week, one Sunday every other week from four o'clock, and a fortnight's holiday in the year. Six weeks' notice is required on each part. The salaries paid range from \$7.50 to \$12.50 a month, with, of course, board and lodging. Sisters wear a brown uniform, are treated as social equals, are not required to take meals with other servants, and are addressed as "Sister Marie," "Sister Hedwig," etc. 122 demand for their services is so great that the head of the Sister school declares that she could place 500 girls a year, instead of 50, and similar institutions are about to be established in other German towns.

### MAKE WAREHOUSE OF CHURCH

Sacred edifice at Brighton, England, Has Been Unfortunate Since Its Erection.

To serve as a cold storage warehouse for meat and eggs—such is the fate of the beautiful Church of the Resurrection at Brighton, England. Built at the expense of the late Rev. H. D. Wagner for the accommodation, it is said, of the poorer members of the congregation, and for those who preferred a ritual simpler than that of St. Paul's church on West street, this building first attracted the public attention as the subject of a curious lawsuit. Mr. Wagner planned to build a remarkably tall church, and the owners of the adjoining property, by means of a lawsuit, prevented him from so doing. Accordingly he caused deep excavations to be made, and thus secured the desired internal height. The Church of the Resurrection proved to be a great expense and was closed in 1903, being, in the opinion of the present vicar of St. Paul's, no longer necessary for the purpose for which it was built. In 1909, after prolonged opposition on the part of Rev. E. F. B. Weber, one of the trustees, it was sold. Since then it has stood empty and in disrepair, until the grotesque tragedy of its present usage occurred.—The Churchman.

### Tons of Iron Lost in Rust

One large railroad system suffers a loss of more than eighteen tons of metal daily, due solely to the effect of rust. Thus far the only known preventive is to keep the metal surface always covered with a suitable paint. Some idea of the costliness of this remedy, however, may be gained from the fact that it requires about \$10,000 annually to paint one large railway bridge alone. A typical case of this kind is the Brooklyn bridge, upon which a corps of painters are constantly employed, as the weather makes repainting of one end of this large structure necessary before the workers have reached the other. Although experiments have demonstrated that pure iron surrounded by oxygen does not rust, and that some acid, especially carbonic acid, is necessary for the production of rust, the secret of manufacturing rustless steel and iron remains to be discovered.

### Lasting Joke

How long will a good joke last? Who can tell? You have heard that one about the good sleighing in Canada, and how by putting on a pair of pajamas and sitting on a cake of ice before an open window and ringing a bell one can get the same effect, and much cheaper. Billy Emerson, the minstrel, originated that one over thirty-five years ago, and it is one that has never run down. DeWolf Hopper began to use it in his curtain speeches eleven years ago, and ever since, eight times a week forty weeks a season, he has used it and it has never failed to get a laugh. Always there are some in the audience who never heard it. Hopper figures that with the addition of a few score times at private functions he has "sprung" the chestnut 3,753 times. It is his one best bet, he says, and expects to use it as long as he is in public life.

### \$20 Gold Pieces a Quarter Each

When five boys commenced to sell \$10 and \$20 gold pieces on the streets of North Scranton for 25 cents each, with the supply apparently unlimited, curiosity was at once aroused as to the source of supply, and the boys were taken into custody and given the "third degree." When searched the youths' pockets produced over \$300 in gold coin and when questioned they admitted that they had found a chest of gold.

The money was buried in a box in the cellar of a house formerly occupied by Peter J. Scanlon, who during his lifetime had the reputation of being a miser. There were \$320 in shiny gold pieces in the box. The boys, none of whom was over eight years of age, thought they were brass medals and sold about twenty of them before being arrested.—Scranton (Pa.) Dispatch to Philadelphia Record.

A New Back for an Old One—How a Charleroi Resident Made a Bad Back Strong.

The back aches at times with a dull, indescribable feeling, making you weary and restless; piercing pains shoot across the region of the kidneys, and again the loins are so lame that to stoop is agony. No use to rub or apply a plaster to the back if the kidneys are weak. You cannot reach the cause. Follow the example of this Charleroi citizen.

Mrs. W. L. Evans, 104 Lookout Ave., Charleroi, Pa., says: Several years ago one of my family complained of a dull pain in the small of the back and trouble with the kidney secretions. Doan's Kidney Pills were used and proved very beneficial. Some time later, Doan's Kidney Pills were procured again at Piper Bros. Drug Store and did good work."

## BETTER THAN SPANKING

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W, Notre Dame, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it! This treatment also cures adults and aged people troubled with urine difficulties by day or night.

will give more "real" service and satisfaction than the "ordinary kind"—and "cost no more"—than the glove represented as "just as good."

"KAYSER" Silk Gloves are not the outcome of "claims" or "arguments," but solely the result of a lifetime of striving for the attainment of an ideal, the achievement of which has not been hampered by restrictions of cost or time.

The guarantee you receive with gloves, sold without the maker's name, rarely ever goes back any further than the clerk who sold the goods.

Every pair of "KAYSER" Silk Gloves contains a guarantee ticket—both the glove and the ticket bear the name of the maker.

See of quality, fit and value and is there for your protection.
